## **WE MOVE 15 YEARS OF NATURAL GAS EXPERIENCE IN ISTANBUL TO ANATOLIA**

Liberalisation of the natural gas sector by inuring of the act 4646 provided the working of new entrepreneurs in wider areas, new cities and moving of natural gas to these places.

Growing competition medium provided cheaper gas usage for the consumer and stiffened distribution companies' right planning, technological and safe substructure, and enterprise responsibility that will secure customer satisfaction.

These functions consummation by the new actors of the sector can only be possible by the interagency of consultant firms who know the market conditions, who are specialist in their subject and who have the experience of planning, production and management.

ARZ Engineering Company has been continuing its destination since 2003 with a staff, who are specialist in the sector, who have production and management experience and experience of project planning, substructure, management, firmware and customer relations in İstanbul, with stability and success.

Going towards its target in the sector with strong steps, ARZ Engineering Company embraces the principles of quality, time and customer satisfaction, assurance, candour and absolute disclosure and continues its works with a spirit of being an example and a leader.

ARZ ENGINEERING, which was founded in 2003 by two entities who laid their 15 years of experience in Natural Gas sector to Turkey's service in the privatization process of the sector, has been executing the Project partnership with

- **ZORLU ENERGY GROUP**
- **ARSAN NATURAL GAS DISTRIBUTION CORPORATION**
- **GAZNET NATURALGAS DISTRIBUTION CORPORATION**
- **AKSA NATURAL GAS DISTRIBUTION CORPORATION**
- **ANADOLU NATURAL GAS DISTRIBUTION CORPORATION**
- **CORUM ELEKTRIK AND NATURALGAS CORPORATION**
- **AKMERCANGAZ DISTRIBUTION CORPORATION**

Groups in the four years left behind.

It has realized and is realizing;

- All of Thrace Region (Edirne, Tekirdağ, Kırklareli, Lüleburgaz, Çerkezköy, Misinli, Muratlı vb.)
- Gaziantep
- Kahramanmaraş
- Yalova
- Çorum
- Yozgat
- Çorlu
- Kastamonu – Karabük – Çankırı
- Adıyaman
- Ordu – Giresun
- Çınarcık
- Sungurlu
- Boğazlıyan
- Van
- Çanakkale Mahmudiye

Natural Gas City Distribution Projects in this frame.

It has also done the feasibility studies of;

- Kahramanmaraş
- Malatya
- Çorum
- Yalova
- Gaziantep
- Tokat – Amasya
- Çukurova Region(Adana,Mersin,Osmaniye,Ceyhan,Tarsus vb.)
- Konya
- Kayseri

And many other regions specialization of which has been just completed.

Turkey's 3. gas distribution company **BURSAGAZ CORPORATION's** 2005 year gas managership activities

- Construction
- Rapid Intervention
- Maintenance
- All of Industrial and Residential Gas distribution activities

Are done by ARZ ENGINEERING with its qualified personnel of 100 Engineer-Operator and Technicians.

And again;

- **ELAZIĞ (ANADOLU NATURAL GAS DISTRIBUTION CORPORATIONS)**
- **ADİYAMAN (AKMERCANGAZ NATURAL GAS DISTRIBUTION CORPORATIONS)**
- **SİİRT-BATMAN (ANADOLU NATURAL GAS DISTRIBUTION CORPORATIONS)**

Gas managership activities

- Construction
- Rapid Intervention
- Maintenance
- All of Industrial and Residential Gas distribution activities

Are done by ARZ ENGINEERING with its qualified personnel of Engineer-Operator and Technicians.

Having the target of meeting all the needs of natural gas sector, our company's product "Natural Gas Managership System" presents execution of all the activities of a gas company

- Stock,
- CIS-MIS
- Accounting
- Human Resources
- Project
- Personnel
- Hand Terminal
- Bank Connections
- Counter with Card
- Invoicing

From a single centre and this computer program is used in İnegöl İNGAZ CORPORATION owned by KALYON GROUP.

Our company also carry out Substructure Contracts and Map works with various partnerships.

- İZGAZ CORPORATION
- BURSAGAZ CORPORATION
- GAZİANTEP
- SEBA ROYAL RESIDENCES
- TUZLA PAINT and GLOSS OIZ (Organized Industrial Zone)
- TUZLA CHEMICAL INDUSTRIERS OIZ
- TUZLA MARBLE QUARRIERS OIZ
- TUZLA TEXTILE INDUSTRIERS OIZ
- YESILBELDE SITE
- NUROL CEKMEKOY RESIDENCES

Our company have done their map and substructure works by partnerships.

Moreover; ARZ ENGINEERING in the last year

- ➡ Air-conditioning
- ➡ Industry Transformation
- ➡ Heating – Cooling

And ARZ ENGINEERING

- ➡ TRADEMARK REGISTRATION
- ➡ EPDK CONSTRUCTION CERTIFICATE
- ➡ ISO 9001:2000 ( TÜRK-AK Approved)

### **COMPANY VISION;**

To be a company of vision signing under worldwide projects.

### **COMPANY MISSION;**

To meet the service need in natural gas and software sector with fast solutions of high quality and optimum costs.

### **COMPANY EIGENVALUES / COMPANY QUALITY POLITICS;**

- We have a company essence taking team spirit and human happiness as a basis,
  - having informed, brilliant and self-sacrificing staff,
  - having group awareness,
  - having quality, time and customer focused enterprise culture,
  - acting with "Sustainable Environment Awareness and Liveable Cities" principle in the projects,
  - assimilating assurance, candour and absolute disclosure,
  - working to be an example and a leader in the sector.

## **PERSONNELS ENGAGING PROCESS;**

Candidates are examined with a personality and mental ability test. These tests are evaluated by a professional firm and after the interview with the chosen candidates, engaging process is realized.

## **EDUCATIONS GIVEN TO OUR PERSONNEL;**

### **Technical (on-the-work) Trainings;**

All the personnel employed are educated on needed professional trainings like Basic Natural Gas Training, PE Electro fusion Source Certificate and Technical Safety Rules Training etc. by Uludağ University Vocational High School Natural Gas and Installation Department.

### **Personal Development Educations;**

Besides all our personnel have educations on Deciding Techniques, Institutional Presentation and Customer Relations.

## **EDUCATIONAL CONDITION OF THE PERSONNEL;**

Our personnel are largely graduates of Engineering Faculty, Vocational High School Natural Gas and Sanitary Installations Machine, Electricity, and Electronics or the graduates of similar departments of Industrial Engineering Colleges.

## **AUTHORIZATION CONDITION;**

Arz Engineering Company has taken Construction and Service Certificate from energy Market and Regulatory Authority.

## **ACTIVITY FIELDS;**

### **Research - Project**

- Natural Gas city distribution feasibility reports,
- Measurements and drawings of current maps,
- Creation of Natural Gas city distribution advance projects, Preparation of licence files,
- Determination of material that will be used in Natural Gas line, material stability and material consultancy services,
- Natural Gas city distribution field exercise projects,
- Doing of Natural Gas line as built plans.

### **Mis - Gis**

- Information systems; substructure information system, customer information system, accounting information system, budget and finance information system, purchase information system, stock control information system, human resources information system,
- City information system,
- Accessory and line,
- Web design,
- all special software and packet programs in informatics area,
- Software and all trainings about natural gas.

### **Substructure – Superstructure Production**

- Natural Gas distribution line and service line production,
- Testing of natural gas distribution lines and their putting into service,
- Natural Gas residence and industry transformation project and applications,

### **Enterprise - Consultancy**

- Natural gas distribution lines' project consultancy,
- Natural Gas line construction consultancy,
- Operation, maintenance and rapid intervention of natural gas distribution lines,
- Internal installation control consultancy.

## **A FIRST IN TURKISH NATURAL GAS MANAGERSHIP**

A first was realized by consultancy contract between BURSAGAZ and ARZ ENGINEERING in the years 2005-2006.

All the activities in Bursa, from materials used in natural gas substructure to lines' putting into service, from approval of internal installation projects to gas opening, from aromatizing in built installation to maintenance and to rapid teams working 24 hours , are done by ARZ ENGINEERING.

Natural Gas service need of Bursa, which has a city population of approximately 2 billions, 68 district stations and everyday growing natural gas line, is met by 88 employee of ARZ Engineering in the scope of consultancy contract signed with BURSAGAZ. The distribution of the personnel is: 34 in managership (rapid, maintenance, main command), 16 in internal installations (project approval, installation control, appointment pursuit system), 36 in construction control (field control, material control, progress control) and also 2 in Bursa Central Office about managerial coordination and accounting.

### **1. Construction Control activities:**

ARZ Engineering construction-control unit is carried out by a specialist team of 36 technicians and engineers who are trained and experienced in natural gas on steel lines, PE service lines, progress control and material control activities.

- Quality control of materials that will be used in substructure,
- Control and inspection of the appropriateness of the production to the project, specifications and standards in the application field,
- Main and definite progress control,
- Gas giving activity control,
- Temporary and definite acceptance activities control.

## **2. Internal installation control and activities:**

ARZ Engineering internal installation control unit carried out project approval and control, appointment giving and pursuit system, refusal and acceptance activities with a specialist team of 16 employees of 2 engineers, 10 technicians and 4 computer operators.

In accordance with natural gas market law no 4646 and related regulations EMRA's 13.01.2004 date and number 288-9 decision, our firm has the certificate of FEASIBILITY-STUDY, PROJECT, CONSULTANCY, CONTROL AND SUPERVISION, CONSTRUCTION, SERVICE AND MAINTANANCE in natural gas market.

- Internal installation projects' control, approval and entrance into system,
- Creating of appointment pursuit system,
- Doing the installation control activity according to specification and standards,
- Doing of recording and filing activities.

### **3. Rapid team and maintenance activities:**

Our team, who provided continuity and safe usage of natural gas used by 350.000 subscribers in Bursa where gas submission is done with 3 RMS-A and 68 district station, is organized as main command and maintenance.

- Periodical and contingent maintenance of stations,
- Periodical maintenance of all regulator, heater, valve and aromatizing units,
- Recording, evaluating, intervening and resulting denouncements,
- Steel lines putting into service,
- PE lines putting into service,

#### **4. Quality control activities:**

Appropriateness of all the materials used in Construction-Control and Lines activities to the accepted standards is carried out by the controls of certificates and products. Quality control activities were carried out in the headship of our mechanical engineer who has an experience of 5 years in the sector.

- Certificate control of all the supplied material,
- Determination of appropriateness by controlling the material according to specifications and standards in force.

## YAPIM VE HİZMET SERTİFİKASI

Sertifika No : YHS/288-9/253

Tarih : 13/01/2004

Bu sertifika; ARZ Mühendislik ve Müteahhitlik İnşaat Sanayi Ticaret Limited Şirketi'ne (23/08/2006 tarihli ve 84 sayılı Başkanlık Oluru ile faaliyet konuları ve kategoriler düzenlenmiştir), şehir içi dağıtım şebekesine ait iç tesisat ve servis hatları dışındaki, doğal gaz piyasasında yer alan tesisler için;

### FAALİYET KONULARI

- FİZİBİLİTE-ETÜT
- PROJE
- KONTROL VE DENETLEME
- YAPIM

### KATEGORİLER

- ▶ Zemin, Arazi, İnşaat, Mekanik
- ▶ Arazi, İnşaat, Mekanik
- ▶ Zemin, Arazi, İnşaat, Mekanik
- ▶ İnşaat, Mekanik

yukarıda belirtilen faaliyet konuları ve karşısında belirtilen kategorilerde 10 (on) yıl süre ile faaliyette bulunmak üzere, 4646 sayılı Doğal Gaz Piyasası Kanunu ve ilgili mevzuat uyarınca Enerji Piyasası Düzenleme Kurulu'nun 13/01/2004 tarihli ve 288-9 sayılı kararı ile verilmiştir.

  
Yusuf GÜNAY  
Başkan
